To whom it may concern,

Coach Anthony Cheatham started working with me back in 2008. I have very rarely learned so much from a coach, or have been pushed out of my comfort zone to get better like I have with Coach. He is very smart when it comes to basketball, yet makes it seem so easy when he is teaching you. In 2009, I hired coach Anthony full time to work with me in the summer time, as well as 20 other Nike athletes. He worked relentlessly to help me improve my shot off the dribble, and I thank him for that even now.

Coach Anthony is a true lover of the game of basketball, and I would recommend him for any coaching position that will allow him to work directly with the players in order to help them get better. I know that he can help any player improve no matter their level. He is great at working with NBA players, just the same as young players, because he cares so much about what he does.

Sincerely yours,

Lebron James
